

IPitomy HD^{HD} Phones

T38G

IP330

IP410

IP320

IP290

A Phone Designed for Business

IPitomy's line of High Definition Audio phones are designed to meet the needs of a wide variety of business applications. Regardless of which model appeals to you, you can be assured that you will enjoy High Definition Audio performance. High Definition enhances the frequency range improving conversations and assuring that every word is as clear as if you were communicating in the same room.

Fits Your Desk and Your Style

Designed for maximum functionality no matter where you place it on your desk. The LCD screen can be seen clearly in any lighting conditions by adjusting the stand to meet the specific conditions of your environment. The IP410, IP330 and IP320 have built in wall mounting for convenience and value. The T38G and IP220 have a fixed stand.

Easy to Use Buttons

Each IPitomy model shares the same basic design philosophy. All of the commonly used functions are grouped together in logically laid out fixed keys to make learning and using your phone intuitive. The Big Red Speaker button is a common element in the IP410, IP320, IP330 and IP220 and lights up when you are using the speaker phone. The advanced headset mode optimizes headset performance integrating it with the phone.

Advanced Features

All of the features you need in a business telephone are included plus enhanced integration with your IPitomy phone system. Moving an extension is simple, just unplug it and move it to another location. Adding a new phone is easy too. Auto provisioning makes it easy.
